Heavy Baggage

*Gypsystyle Totes*

You've been told you've got a lot of baggage. (Seriously, even the Essene cashier figured it out.)

Good thing we found bags up to the task of handling (read: concealing) all that crap you carry. Former stylist **Noel Cianci's Gypsystyle line** comes in an array of colors, shapes, and sizes — all made of ecofriendly **100 percent recycled plastic**.

We love the Gypsy tote for its multitude of pockets and pouches. And the Sleepover, which is spacious enough for all your lipsticks and shoes for a weekend getaway.

Whichever you choose, they're all **durable, fun, and low maintenance**.

In other words, everything you're *not*.
